## Specifications

# CODEK

### CPU

1.2GHz

### Dimensions

62.9×31×18.7mm

### Material

Alloy, PC

### Waterproof rate

IP65

### Battery

Polymer lithium battery  
3.8V / 800mAh/removable  
Continuous working time 4h  
Standby time more than 24h  
Charging time less than 3h

### Communication mode

Dual-mode Bluetooth  
NFC quick pairing  
ISO15693

### Interface

Pogo pin \*4

### Notifications

Vibration  
Buzzer  
3-color LEDs

### Buttons

Scan button×1  
Power button×1

### Scanning

2D/white light illumination laser aiming  
Decoding Range: 5-40cm (based on actual scenarios)  
Decoding speed: within 100ms

### Storage capacity

Nor Flash 8MB

### Environmental illumination

0-100000LUX

### ESD

Air±15K  
Contact±8K

### Environmental parameters

Operating temperature: -20°C-50°C  
5%-95%RH (Non-condensation )  
Storage temperature: -30°C-70 5%-95%RH (Non-condensation )
