

DT433 - POS-PDA

- 4,3" Touchdisplay
- 400 x 240 Pixel
- IP54 Protection Class
- Wireless LAN and Bluetooth
- Intelligent Functions
- Including Single Slot Cradle

The DT433 by ART development is a versatile POS-PDA which has its main strength in the gastronomy and hospitality business.

Its clear Display Cover protects the 4.3" Touchdisplay which has great brightness, contrast and reading comfort values.

Even at outside application the DT433 is a great choice thanks to its IP54 protection class.

The integrated Wireless LAN and Bluetooth functionalities establish a constant connection to the network which for example lets the DT433 automatically connects to the receipt printer in the kitchen or the bar when taking orders at the customer's tables.

Its Li-Ion battery also supplies enough power for a long usage which also get raised by intelligent features like an automatic stand by function when closing the Display cover.

Technical specifications:

CPU: ARM9 533MHz

Display: 4,3" WQVGA TFT Color Touchdisplay

Resolution: 400 x 240 Pixel

Wireless LAN: 802.11b/g

Bluetooth: 2.0 EDR

Memory: 128MB DDR RAM, 128MB Flash, Micro-SD Card Slot

Protection Class: IP54, 1.5m multiple drops onto concrete

Battery: 1800mAh Li-Ion

Weight: 212g

Dimensions (H x W x D): 135mm x 79mm x 33mm

Sensors: Light Sensor, G-Sensor

Interfaces: USB 2.0

Including: Including additional 1800mAh Battery, Drop cord, Belt Holster and Single Slot Cradle with Host-Function (One power source for several cradles)

Intelligent Functions: Auto-Brightness, Auto-Stand By (Closing of Display Cover), Auto Display-Flip
